

KTS 2000

drying cabinet designed especially for hard-to-dry heavy-duty clothes

The OSMA KTS 2000 is a two-door drying cabinet and was designed especially for hard-to-dry heavy-duty clothes, work clothes and cut protection clothes.

A rotary disc featuring 18 hooks is fixed to the ceiling of the cabinet and allows a quick and easy hanging and removing of clothes. Furthermore, the rotating of the disc quickens the drying process. The process of blowing warm air into the entire cabinet results in an efficient and gently drying of numerous types of clothes.

The built-in 24 hour operation timer enables an individual and automatic setting. In addition, the cabinet features a 6 hour clock timer and an on/off switch.

Optional accessories & upgrades

- exhaust pipe
- LED timer, quartz controlled, current program remains active even when the unit is currentless
- LED temperature setting
- possible temperature up to 80° Celsius

Advantages

- simple and efficient drying process
